Subject: [External] Say NO to Atlantic Coast Pipeline!

Please say NO to the ACP. The ACP will be a huge step backward in the fight against climate change since fracked natural gas emits methane and there are indications that it could be an economic disaster as well. If pipeline is built, Duke Energy will be saddled with heavy debt at a time when sustainable energy is increasing and gas may not be needed which means Duke customers will be saddled with high rates to pay for an obsolete pipeline.
